Thank you.

I was planning on listening in. It's audio only, right?

Subject: HPNS | Congressional briefing on Friday, May 3

Chris,

We briefly discussed this last Monday afternoon. On Friday, May 3rd we have a briefing scheduled to update Congressional offices on our proposed path forward letter for the site. So far, Senator Feinstein's office and Senator Harris' office have confirmed. From Speaker Pelosi's office, Miguel Guerrero has confirmed, but Robert Edmonson of was out of the country last week. We hope to hear his response early this week.

OPA has confirmed that Mike will not participate in the briefing on Friday. I'll be sure to work with them to send you a summary after the briefing.

Office of Speaker Nancy Pelosi

Office of Senator Dianne Feinstein

Office of Senator Kamala Harris

Dear Colleagues:

I wanted to invite your offices to an upcoming conference call update for the Hunters Point Superfund Site to provide you with an update on EPA's ongoing oversight role. We hope you have had a moment to review our April 11th proposed path forward letter we sent to the Navy, and if not, I have attached the letter again for your reference. Our letter specifically outlines a path forward to finalize the Five-Year Review report and the Parcel G Work Plan in phases to strategically move forward with the field rework. EPA has committed to the public, including members of Congress, that the rework must proceed with full transparency. Therefore, our proposed path forward is inclusive of completing these documents in a manner that is transparent to the public and allows for public comment.

EPA's role at the site is to make sure the Navy's cleanup plan protects public health and the environment. This requires a thoughtful approach involving a thorough evaluation of information and ongoing discussion among the Navy and regulatory partners. Our proposed path forward is as flexible and expedient as possible, without compromising the protection of human health. We had a productive meeting with the Navy on April 15th and we look forward for their response to our letter.

The proposed day and time for the call is Friday, May 3, 2019 at 1:00pm PT (4:00pm ET).

Please confirm if this proposed day/time work for your offices. We are hopeful that we will have at least one person from each of the office participate in this upcoming meeting. I have set up a conference line for us to use for this discussion and am providing both the call-in number and access code to join the call.

Expected EPA Participants:

Enrique Manzanilla, Director, Superfund Division

Angeles Herrera, Assistant Director, Superfund Division

John Chesnutt, Chief, Superfund Division

Lily Lee, Chief, Superfund Division

David Yogi, Chief, Superfund Division

Yolanda Sanchez, Community Involvement Coordinator,

Superfund Division

Subject: U.S. EPA - Copy of U.S. EPA Letter Sent to Navy Regarding Hunters Point

Dear Colleagues:

I wanted to share with you a copy of a U.S. EPA letter dated April 11, 2019 sent by our Superfund Division Director Enrique Manzanilla to the Navy's Laura Duchnak, Director, Base Realignment and Closure Program Management Office regarding Hunters Point. I will be reaching out to your offices in the near future to schedule an update call for your offices. Please let me know if you have any questions or need any additional information.

Regards,

Brent Maier
